Objective

Motivated Mathematics student at IISER Bhopal seeking a research internship. Having completed various coursework in Mathematics, I aim to explore different fields of mathematics and their real-world applications under the guidance of experienced researchers.

Education

Indian Institute of Science Education and Research, Bhopal

BSMS - Natural Science

2024 – Present

Bhopal, Madhya Pradesh

Sainik School Goalpara, Assam

Senior School Certificate Examination

2021 – 2023

Goalpara, Assam

CBSE Percentage: 76.60%

Sainik School Goalpara, Assam

Secondary School Certificate Examination

2019 – 2021

Goalpara, Assam

CBSE Percentage: 93.60%

Work Experience

Research Intern

Project: Solving Partial Differential Equations using Finite Element Method in FEniCS

NIT Patna, 05 May - 04 July 2025

- Developed and implemented finite element solvers for partial differential equations using FEniCS (Python-based open-source platform).
- Formulated PDEs using the Finite Element Method.
- Implemented weak form formulation, boundary conditions, and numerical solvers in FEniCS.
- Gained strong hands-on experience in computational mathematics, scientific computing, and Python-based PDE modeling.

Skills

- **Hard Skills:** Python (Pandas, NumPy), C, MS Office
- **Soft Skills:** Communication, Team Collaboration, Problem Solving
- **Languages:** Hindi, English

Achievements

- Medal & Certificate of Distinction at Zonal Level in SOF IMO 2022
- 100% Marks in Mathematics in 10th CBSE Board Exam
- Highest Scorer in Mathematics and Informatics Practices in 12th CBSE Board Exam (in School)
- Bronze Medalist – 10KM, Inter IISER Sports Meet 2025 (held at NISER)
- Gold Medalist – 5KM & 10KM, Sangharsh'26 (Intra IISERB Sports Meet)
- NCC 'A' and 'B' Certificate Holder

Extra-curricular Activities

- Department Representative (Maths) 2025 – 2026
- Core Committee Member, Sports Council 2025 – 2026
- Student Mentor, Student Development Council 2025 – Present
- Co-Convenor, Sangharsh'26

Relevant Coursework

- MTH101 : Calculus I
- MTH102 : Linear Algebra
- MTH201 : Multivariable Calculus
- MTH202 : Probability and Statistics
- MTH203 : Introduction to Groups and Symmetry
- MTH204 : Complex Variables
- EES201 : Atmospheric Sciences
- EES205 : Oceanography
- PHY101 : Mechanics
- ECS102 : Introduction to Programming
- PHY106 : Quantum Physics
- ECS201 : Discrete Mathematics
- ECS202 : Data Structures and Algorithms
- ECS204 : Signals and Systems
- EES202 : The Evolution of the Earth
- EES208 : Geochemistry
